Dear [redacted]

I am writing to respond to your request sent on the 6th July 2016. OUH can confirm that it does not hold the data that you requested.

No medical devices within the Trust are connected to the internet.

Regards,

Hi there,

I would like to know the following under the Freedom of Information Act.

1. Please list all the healthcare devices that are connected to the Internet or Mobile gateways?
2. How many of the devices listed in question 1 are handling personal identifiable information?
3. Are these Internet-connected healthcare devices connected to a WiFi network? I.e. drugs pumps, baby monitors, webcams used to monitor patients, etc.
4. Are these devices connected to a separate network? Or is this network accessible by mobile phones, tablets or other consumer devices?
