The hospital also offers specialist services such as the treatment of bone infection and bone tumours, limb reconstruction and rehabilitation.

The Oxford Centre for Enablement (OCE) provides specialist neurological rehabilitation services for patients with long-term conditions.

The Botnar Research Centre is a state-of-the-art research facility housing the Oxford University Institute of Musculoskeletal Sciences.

Please check carefully where you need to go so that you can choose the closest car park or bus stop (see map on page 8).

Disabled access
All our car parks have disabled spaces and spaces close to the entrances. All our public areas have disabled access and disabled toilets are available in public areas and on all wards. Please ask at a reception desk if you require a wheelchair or assistance from a porter.

Patients with hearing difficulties
If you wear a hearing aid or have hearing difficulties, please tell the nurses and doctors looking after you.

Interpreter services
If your first language is not English and you need an interpreter to help you speak to doctors and nurses, ask a relative or friend to tell your nurse as soon as possible. (Your GP may already have told us that you need an interpreter.)

Smoking
For the health and safety of all patients and staff, smoking is not allowed within the hospital or its grounds.

Theatre Direct Admissions
On the morning of your surgery we will admit you via the Orthopaedic Short Stay Unit (OSSU) near the main entrance, or via Theatre Direct Admissions (drop-off point to the left as you enter the NOC site). Please do not arrive before the time we give you, as the doors do not open until 7.00am. You may then have to wait in the department before you go to theatre. You wait for your theatre slot in your own clothes, and change into a gown before going to theatre. Your clothes and belongings will be securely stored, and returned when you are transferred to the ward. We can only store hand luggage size bags, so please only bring essentials with you. We cannot be held responsible for any items stored.
YOUR HOSPITAL VISIT

Consent to treatment
We may ask you to sign a consent form before certain treatments. You can withdraw consent even after signing. Ask any questions you like, and tell us about anything which may affect your general health. We may also ask to use your surplus tissue for medical research: please ask for a leaflet explaining this.

Personal information
You may be asked to give information about yourself, including 24 hour contact details for the person you would like to be contacted in an emergency, e.g. your wife, husband, partner, friend or relative. If you change your GP or your home address, please contact us so that we can update our records.

Presence of students at patient appointments
Students may be present when you have an appointment: if you would prefer students not to be present, please tell the nurse or the doctor.

Hand washing (infection control)
Healthcare workers clean their hands with soap and water or by using a special hand rub. Please ask all healthcare workers to clean their hands before carrying out any care.

Cultural / religious needs
Our 24 hour Chaplaincy service supports patients and relatives of all faiths and none, and will help to contact religious leaders in the community. Please ask a member of staff if you wish to see a Chaplain during your visit. There is a multi-faith room above the atrium.

Support for carers
Do you look after someone? Carers Oxfordshire listens to carers and provides information and advice. It also aims to help carers get the support they may need. Telephone 0845 050 7666 or email carersoxfordshire@oxfordshire.gov.uk

Shops, restaurants and cashpoints
There is a restaurant, and a League of Friends cafeteria and shop in the main atrium, as well as a vending machine and a cashpoint.
STAYING IN HOSPITAL
When you arrive on your ward we will give you a printed wristband to wear. We use the wristband to check your identity before we give you any treatment. If you notice a mistake on your wristband or are not given one, please tell a member of staff.

Personal property
You will have a small bedside cabinet, but it cannot be locked. We cannot store valuables securely, so please do not bring any with you.

Pensions / benefits
If you receive a pension or benefits please ask a friend to deal with these during your stay. If this is not possible, bring your pension book with you and give it to your nurse. Pensions and benefits may be reduced while you are in hospital: please contact the Department for Work and Pensions on 0845 606 0265 if you are in any doubt.

What to bring
• Medicines
  Please bring with you all medicines you are taking, in their original containers, and any special cards that give details of your current treatment (e.g. steroid card). Please also bring any non-prescription medicines, ointment or supplements that you use regularly. Put all these things in the green medicines bag (supplied with your admission letter).

LEAVING HOSPITAL

We will aim to get you ‘Home for Lunch’ on your day of discharge wherever possible. We will ask you to move from your bed space to the day room early in the day; here you can wait in comfort for your medication and your transport home.

Most patients go back home when they leave hospital; if you need community support services these can be arranged.

If your care needs can best be met in a community hospital, we will find and transfer you to the first available bed. There are a number of community hospitals in Oxfordshire, so the first available bed may not be the one closest to where you live.

INFORMATION ABOUT YOU AND HOW WE USE IT

Trust Privacy Notice

When you come into hospital, information about you, your medical treatment and family background may be recorded, on paper and computer, to help us care for you. The information is part of your health record and will be kept in case we need to see you again.

Members of the clinical teams looking after you may share your personal health information with each other. This team may include healthcare professionals, support staff and students. All NHS staff are bound by law and a strict code of confidentiality, and are monitored by the Trust’s Caldicott Guardian, who is responsible for ensuring patients’ confidentiality is respected. Your confidentiality is very important to us, and we have strict controls in place to protect your information.

How your records are used to help you

Accurate, up-to-date information about you:
• helps staff to assess your health and care for you
• will help staff to treat you in future, in hospital or elsewhere
• allows staff to monitor and if necessary investigate the care you have received.
How your records help us

Accurate, up-to-date information about you:
- helps us provide high quality care and meet all our patients’ needs
- helps us train healthcare professionals and support research and development
- is necessary for the hospital to be paid for your treatment
- supports audits of NHS services and accounts
- supports investigation of any incidents or issues that arise
- contributes to national NHS statistics.

Sharing your information

Sometimes we have to pass on information by law:
- to notify a birth
- when an infectious disease such as meningitis or measles may endanger the safety of others
- where a formal court order has been issued
- when sharing information with the police may prevent a serious crime, or prevent harm to you or other people.

We may have to share information about you with non-NHS staff (for example Social Services): we will only do this if it is necessary, and if we need your consent we will ask you for it. The main NHS organisations which may need your information are Clinical Commissioning Groups, Commissioning Support Units, other NHS trusts, GP practices and ambulance services. If we have to share information about you, we will remove your personal details where possible.

We may arrange for external companies to type dictated correspondence. This typing may be done overseas. Your name and address is not added until the typed correspondence has been returned to us, so it is not possible for anyone outside the Trust to identify you.

In addition, information may be used for approved research projects. In most instances the information will be made anonymous so that you cannot be identified. If this is not possible, we will ask your permission or request approval from the Health Research Authority’s Confidentiality Advisory Group. Should you not wish information about you to be used for research you may let us know in writing by contacting the Research and Development Team by email at ouhtma@nhs.net or in writing to:
