Support at home to help you stay independent after a hospital stay
SUPPORT AT HOME TO HELP YOU STAY INDEPENDENT AFTER A HOSPITAL STAY

John Radcliffe Hospital office: 01865 572 917
Horton General Hospital office: 01295 229 017

The Oxford University Hospitals Supported Hospital Discharge Service provides care which is designed to help you regain independence in your own home.

After a stay in hospital you may not immediately be able to do everyday tasks, such as washing or dressing, or just getting around as well as you did before your injury or illness.

We will care for you in your own home for up to 14 days, to help you regain your confidence and the skills you need to live independently.

WHAT WE PROVIDE

We can provide up to four visits a day for up to 14 days. A team of Support Workers will come to your home throughout the week and weekend, to help you with any issues identified on your care plan.
WHO IS ELIGIBLE?

Anyone who:
- is medically fit to be discharged from one of our hospitals
- lives in Oxfordshire and is registered with an Oxfordshire GP
- does not already have an existing care package
- has an existing care package which cannot re-start for a few days.

If the nurses on your ward think that you would benefit from the Supported Hospital Discharge Service, they will refer you to us. One of our Assessors will visit you in hospital to see if the service is appropriate for you.

Our Assessors and Support Workers will continue to visit you during the 14 days after you leave hospital, to see if you are still benefitting from the care provided.
