

Dear [REDACTED]

I am writing to respond to your request [REDACTED] December 2015. Oxford University Hospitals NHS Foundation Trust can confirm that it holds the data that you requested.

1. How many patients with a diagnosis of cancer also had a diagnosis of oral mucositis (K12.3) in the years: 2014-2015, 2013-2014 and 2012-2013?

Year	Number of Patients
2012-13	115
2013-14	120
2014-15	142
Total	377

2. How many patients were admitted to Accident and Emergency (A&E) for Oral Mucositis (K12.3) in the years: 2014-2015, 2013-2014 and 2012-2013?

Year	Number of Patients
2012-13	47
2013-14	56
2014-15	46
Total	149

3. For the past year, what was the median length of hospital stay for patients admitted to hospital for oral mucositis, with a previous primary diagnosis of cancer? If possible, please provide the same information for the preceding 2 years.

18 days

This is for patients who were admitted with a diagnosis of Oral Mucositis during 2014-15, who had had a previous cancer diagnosis during the last 2 years

4. Which products are currently used by the trust in the prevention and treatment of oral mucositis induced by cancer treatment?

See attached

5. How much money was spent on each product identified in question 4, in the past year? If possible, please provide the same information for the preceding 2 years.

See attached

6. For the last year, how were patients with Oral Mucositis (K12.3) referred to the

Trust? If possible, please complete this in the following table format:

Method of referral (for example: GP referral, self-referral etc.)

Unable to provide this by method of referral

153 patients were admitted to the trust.
