

Request

I would be very grateful if you could give me statistics for the number of patients who attended Accident and Emergency departments on December 28, 29 and 30 at the John Radcliffe and the Horton hospitals (separately).

I would also be very grateful for the numbers of those who were seen by a doctor within the target time and how many were admitted to hospital for each day.

Response

In order to comply with our obligations under the Data Protection Act we have redacted numbers to "<5" where numbers in a particular patient group are less than 5. This is to reduce the possibility of any individual being identifiable from this information or by combining it with information that may already be in the public domain.

28/12/2016

Type 1 Attendances

JR – 229

HG – 105

ED Breaches

JR – 29

HG – 11

No of emergency admissions from A&E (not available split by site) – 162 (un-validated figures)

29/12/2016

Type 1 Attendances

JR – 217
