

6726 CFS PACE Trial Participants

Request & Response

I would like to make the following Freedom of Information request. Please could you let me know how many of your CFS/ME patients at the service in Oxford actually took part in the PACE Trial which reported in the Lancet in March 2011, i.e those patients who were randomly allocated to treatment groups for the Trial and who were therefore part of the published PACE Trial research data? 108.
