

Request

I'd be very grateful if you could give me details under the Freedom of Information Act about the capacity of the Spires and main maternity delivery functions at the JR, and what activity there was at those two departments on October 20, 21 and 22 respectively.

Could you please let me know how many admissions/deliveries/elective Caesarian sections there were during those three days?

Response

In order to comply with our obligations under the Data Protection Act we have redacted numbers to "<5" where numbers in a particular patient group are less than 5. This is to reduce the possibility of any individual being identifiable from this information or by combining it with information that may already be in the public domain.
