Welcome to our Horton Public Meeting
A warm welcome
Professor Sir Jonathan Montgomery, Chair
Review of the past year and future plans

Dr Bruno Holthof, Chief Executive, Oxford University Hospitals

Lou Patten, Chief Executive, Oxfordshire Clinical Commissioning Group
Planning future services together

- **We heard** that people want to be more actively involved in planning future health and care services
- **We developed** a framework to review and plan for future care needs in the community, with local communities
- The framework has been approved by the *Health & Wellbeing Board*
- We will use this to help shape our future plans for Banbury and surrounding areas
Indicative Programme for Population Health Planning in North Oxfordshire

October 2019 – March 2020

Review of Services and Assets
Innovation & Good Practice
Population Health & Care Needs

Meetting Population Needs
Development of plans for services required to meet needs

Plan of services to meet local needs Reviewed every few years or if population significantly changes

Engage & Inform
What are the needs?
What are the gaps?

Gaps and plans work in progress

April 2020 – September 2020

THROUGHOUT: continue to deliver services and agreed improvement priorities; staff engagement; stakeholder engagement
MATERNITY: summary of work undertaken to meet Secretary of State recommendations

OCCG and OUH working with stakeholders and local population in following workstreams:

- Engagement with families, stakeholders and staff
- Service description and mothers’ experience
- Future vision for the Horton General Hospital and interdependencies
• Size and share of the healthcare market \textit{(activity and population modelling)}

• Options work-up, including workforce finances, travel and access

• Options appraisal for September OCCG Board decision

\textit{Options had to take into account the wider population beyond Oxfordshire}

\textit{This work reports to the Joint Horton Health Overview \\& Scrutiny Committee on a regular basis.}

A day in the life of our Emergency Department

James Ray
Consultant in Emergency Medicine
OUH Emergency Departments

- Open 24 hours a day
- 7-days a week
- 365 days a year
- Around 400 patients a day between both sites
- Routes in: 999, 111, GP referral and walk-in
- NEVER REFUSE CARE
- Treat everything from minor injury to cardiac arrest
One Trust, TWO Emergency Departments, ONE vision

JOHN RADCLIFFE

• Major Trauma Centre
• Heart Attack Centre
• Stroke Centre
• Neurosurgical Centre
• Vascular Centre
One Trust

Thames Valley Air Ambulance or SCAS Ambulance service know where to take you at times of critical need

Seamless transfer of care from Horton to JR if necessary

Patients don’t need to have to think which hospital to use for urgent and emergency care needs
The Horton ED Team

- Consultants work at both sites
- Use same Clinical Pathways at both sites with same quality care
- Passionate about patient experience
The Brodey Centre

Lisa Aston
Ward Manager

Liz Normandale
Specialist Nurse Practitioner
WHAT I WILL COVER

• Who are the team?
• An overview of the Brodey Centre?
• How the Brodey Centre has developed
• The future
The Team
An overview of the Brodey Centre

- Nurse led Chemotherapy Delivery Unit at the Horton General
- A satellite unit linked to the Cancer Centre at the Churchill Hospital, sharing the same policies and protocols
- Situated off the Outpatients Department at the Oxford Road entrance to the Hospital
History

• **Opened in 1998** to enable local people to be treated nearer home

• The inspiration of the family of a local businessman and fundraiser, **Ian Brodey**
The future

- **Now six visiting consultants** who run clinics throughout the week in the Outpatient Department at the Horton
- Still some patients who have to make the journey to Oxford
- Working towards increased clinic times at the Horton
We’re proud of our shared vision

- **Work collaboratively** to ensure patients are welcomed and valued as individuals
- **Be the patient’s advocate** and signpost them to all relevant services
- **Listen and respond** to patients and their families effectively
- **Be compliant** with all OUH guidelines
- **Always uphold the reputation** of OUH, Brodey Centre and our individual profession
Horton Trauma Service

Angela Kannan
Consultant in Orthogeriatrics
Meet the team!
Thank you for coming.
Have a safe journey.
