

Rare inherited
anemias:

have your
say

Tell us what
you think...

What is the priority
setting partnership?

This is **your chance** to help us identify what you and other patients feel are the most important questions that researchers should focus on for the **diagnosis, treatment and management** of rare, inherited anaemias.

We hope this helps focus the research that is going on in this area to something that will make a **real difference** to patients.
