

Student Placement information

Urology Outpatients and Urology Specialist Nurses – Churchill Hospital

The Urology Outpatients Department is a busy department offering clinics and services to our urology patients. There are a number of Advanced Nurse Practitioners and specialised teams working in the department to offer services to our patients.

The department offers general urology services for the diagnosis and treatment of the most common urological problems and our client group includes male and female patients aged 16+. Urology Outpatients includes both consultant and nurse-led clinics seeing around 200 patients a week.

Please make contact with the placement as soon as possible.

The ward contact number is **01865 572330**: the best time to call is mid-morning or mid-afternoon.
