

Information sheet detailing Day One rights for agency workers

The Oxford University Hospitals is one of the largest NHS teaching trusts in the country. It provides a wide range of general and specialist clinical services and is a base for medical education, training and research.

The Trust comprises four hospitals; the John Radcliffe Hospital, Churchill Hospital and Nuffield Orthopaedic Centre in Headington, Oxford and the Horton General Hospital in Banbury.

Accommodation

There is accommodation for staff on all four sites subject to availability with a mix of single rooms and single rooms with en-suites, both sharing the communal facilities of a kitchen, lounge and dining room. There are a limited number of double rooms, studios and one and two bedroom self-contained flats; however, demand is always high and the Trust operates a prioritised waiting list.
