

DO YOU, OR DOES ANY MEMBER OF YOUR HOUSEHOLD, HAVE ANY SYMPTOMS OF COVID-19?

A HIGH TEMPERATURE

A NEW CONTINUOUS COUGH

A LOSS OF OR CHANGE TO YOUR SENSE OF SMELL OR TASTE?

YES

Then **ALL** household members **MUST STAY HOME** – including **YOU**.

AND

The **SYMPTOMATIC** person must get a **TEST IMMEDIATELY**. Please visit the [STAFF TESTING PAGE](#) for more information.

POSITIVE TEST RESULT

EVERYONE in your household remains in self-isolation. **YOU MUST NOT GO TO WORK**. Visit the [NHS WEBSITE](#) for more information.

NEGATIVE TEST RESULT

HOUSEHOLD MEMBERS may return to work immediately. **UNWELL PERSON** to return after symptoms settled.

BUT

If no one in your household (including you) has symptoms, but one member has been told they are a **CONTACT** follow the guidelines below:

ONLY THE CONTACT SELF-ISOLATES FOR 10 DAYS

- All other (non-contact) household members can leave the house.
- **IF THE CONTACT DEVELOPS SYMPTOMS:** follow flowchart above
- If the contact *does not* have symptoms: testing is not helpful, as **10 DAYS** isolation at home is required **even if the result is negative**.

If you aren't sure what to do: Contact **NHS 111** or speak to **Occupational Health**. Do **NOT** leave home if you are a contact, or if any household member has symptoms.
